PROFESSIONAL SUMMARY

Computer Science graduate (B.E.) with a PG Certificate in Mobile Computing from CDAC Sunbeam, looking for an entry-level software developer role. Spent four months as a Full Stack Java intern at EXCLER Solutions, writing Spring Boot backend code and MySQL queries. Built a video streaming platform (Spring Boot, React, MySQL, JWT login with user and admin roles) and an Android donation app (Java, Kotlin, Firebase, Google Maps). Solid in OOP and data structures, and open to backend, full stack or Android work.

TECHNICAL SKILLS

Languages: Java, Kotlin, JavaScript, SQL
Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, RESTful Web Services, JWT, JDBC
Frontend: HTML5, CSS3, React.js, Responsive Web Design, REST API Integration
Android: Android SDK, XML UI, Activities & Fragments, Firebase (Auth, Realtime Database), Google Maps API
Database & Tools: MySQL, Firebase, Git, GitHub, Maven, Postman, IntelliJ IDEA, STS, VS Code, Android Studio
Concepts: OOP, Data Structures & Algorithms, MVC Architecture, SDLC

WORK EXPERIENCE

Full Stack Java Developer (Intern) | EXCLER Solutions (Aivarient) Jan 2025 – Apr 2025

- Developed and optimized Spring Boot backend modules for the company's Java applications, as part of the team.
- Wrote MySQL queries and built the CRUD operations those modules use to create, read, update and delete data.
- Worked with the team to improve API performance and keep the backend structure ready to scale.

PROJECTS

Video Streaming Platform Java, Spring Boot, React.js, MySQL

- Built a full-stack video streaming app: React frontend, Spring Boot REST APIs for every feature, and a MySQL database.
- Secured it with JWT authentication and role-based access (user/admin) using Spring Security.
- Implemented 6 user features: video streaming, subscriptions, watch history, likes, search history and premium access.
- Built an admin dashboard with 4 modules (users, videos, categories, subscriptions) using Spring Data JPA.

Donate At Your Fingertips Java, Kotlin, Android, Firebase

- Built an Android donation app in Java and Kotlin with XML layouts for posting and requesting donations.
- Added login, request management and real-time notifications, with Firebase syncing data across 3 categories.
- Integrated Google Maps API and GPS location tracking to match donations and requests by location.

EDUCATION

Post Graduate Certificate Programme – Mobile Computing (PG-CP) Aug 2026
CDAC Sunbeam Institute of Information Technology, Pune

- Coursework: Mobile Application Development, Advanced Java, Cloud Computing, Software Engineering

Bachelor of Engineering – Computer Science (B.E. CSE) 2024
Sinhgad Institute of Technology and Science, Pune | CGPA: 7.9

XII – Maharashtra State Board (MH-HSC) 2020
Residential Junior College, Ahmednagar | 73.54%

X – Maharashtra State Board (MH-SSC) 2018
Pandit Jawaharlal Nehru, Ashti | 93.80%

CERTIFICATIONS

- **PG Certificate in Mobile Computing** – CDAC Sunbeam Institute of Information Technology, Pune (2026)
- **Full Stack Java Developer Training** – OOP, Spring MVC, RESTful APIs, JDBC, MySQL

KEY COMPETENCIES

Full-Stack Development • REST API Development • Android App Development • Object-Oriented Programming • Data Structures & Algorithms • Database Design & SQL • Debugging & Troubleshooting • Problem Solving • Teamwork
